

# West Coast Cab

## LOG LOADER CAB & RISER

A *CLW* Company

[www.imac.ca](http://www.imac.ca)

### IMPROVED VISIBILITY, SAFETY AND OPERATOR COMFORT

**Rear Entry Design** - Eliminates the need for climbing dangerous ladders up the side of the riser.

**Larger Inside Size** - Means extra operator comfort.

**Higher Roof** - Sloped to further increase height at front for improved visibility when lifting.

**Forward Pitched Riser** - Positions the cab to improve visibility both around the boom and of the tracks.

**Floor Windows** - Compliment the "forward pitched riser", to give a clear view of the tracks.

**Hydraulic Tilt Riser** - c/w self contained hydraulic power unit, cylinder and safety cable for easily hinging the cab forward for transport.
